**Upgraded shopping and support experience on re-skinned
www.businessofweb.com**

06 June 2016 18:00 PM

Indore, Madhya Pradesh, India

Leading web technologies firm BusinessOfWeb.com launched a new version of its web services e-commerce shopping portal www.businessofweb.com. The reskinned and upgraded web app is meant to provide superior shopping and support experience to its customers.

Speaking about the upgrade, Ms.Shukla, Co-Founder, explained, "Our endeavour is to always keep web services handy for our customers' business needs. This upgrade ensures clients can simply login from their device to seamlessly order, use and renew all the services".
